

Creating a Diode Email Shortcut

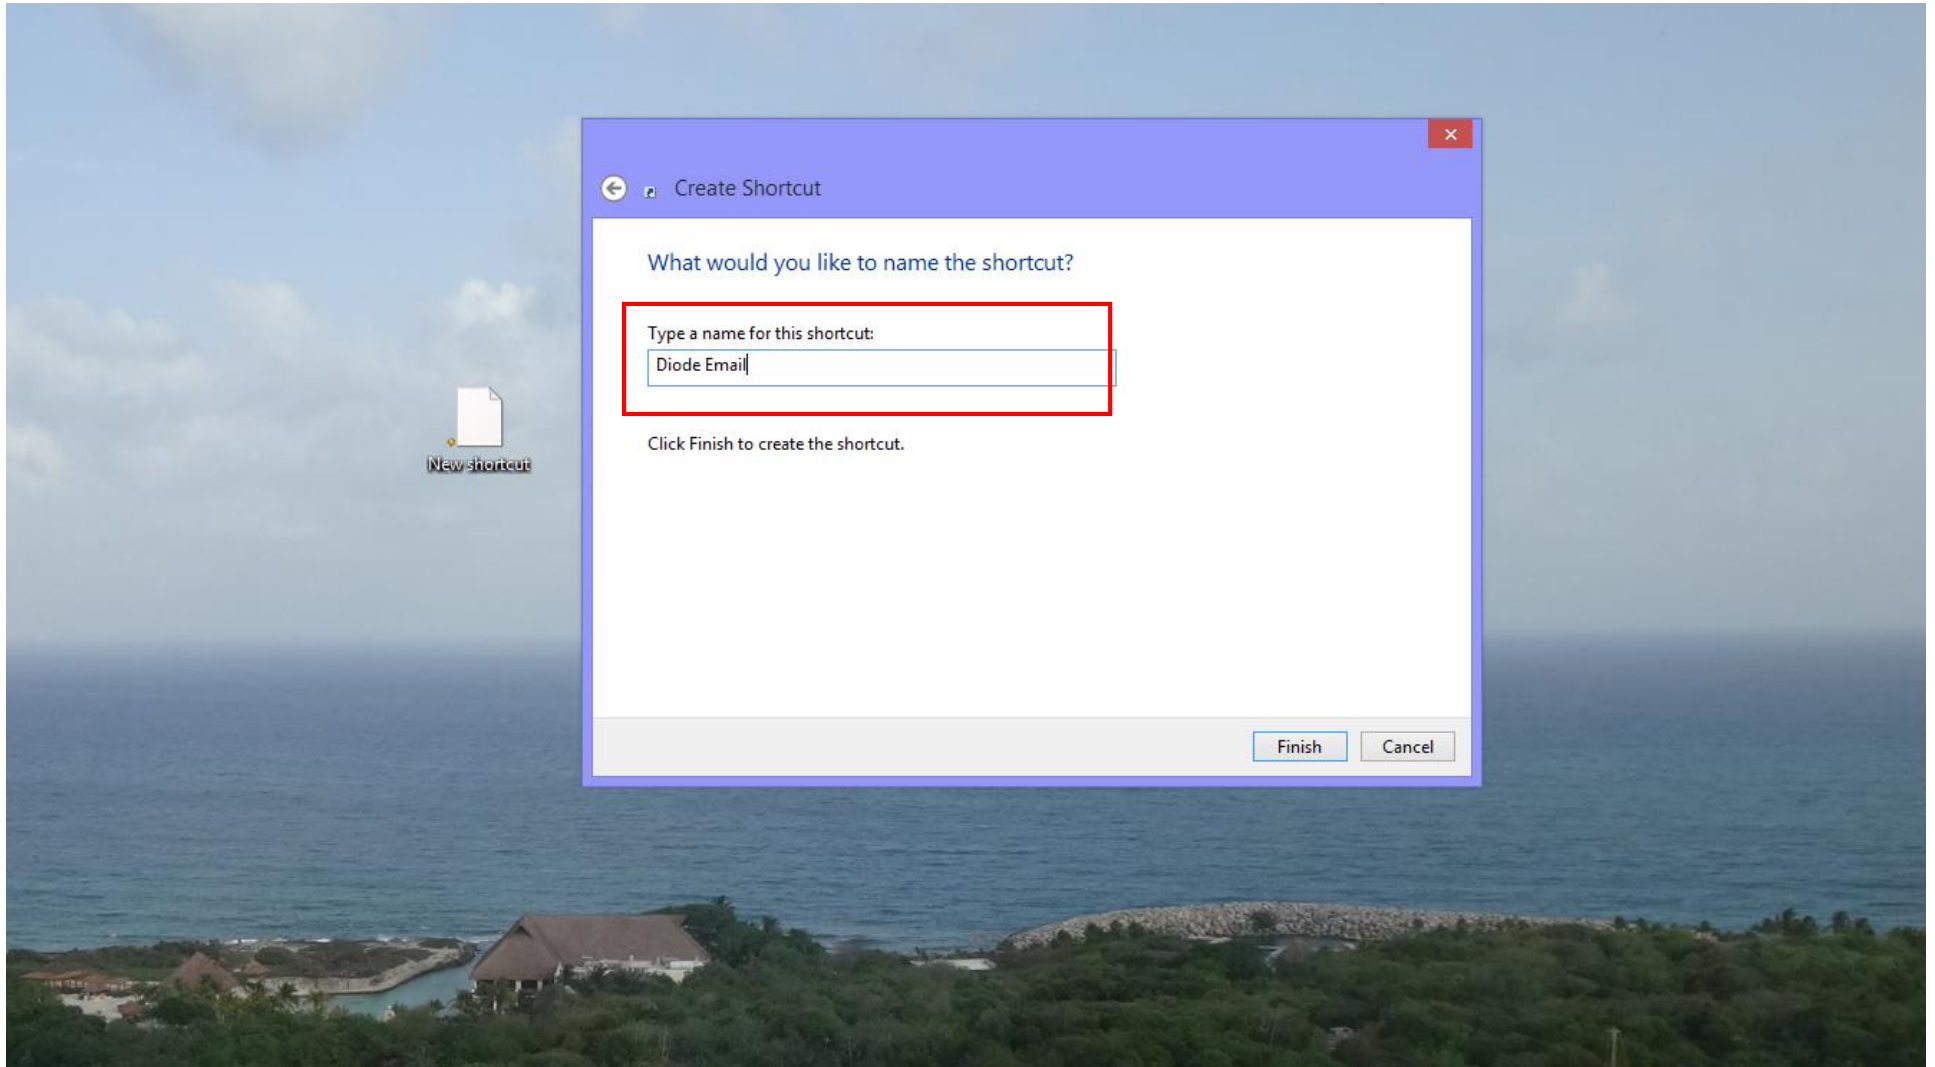

Right-Click on an empty space on your desktop.

Type the location of the item. In this case, it is our website link also called URL <http://webmail.diodecom.net> Then Click **NEXT**.

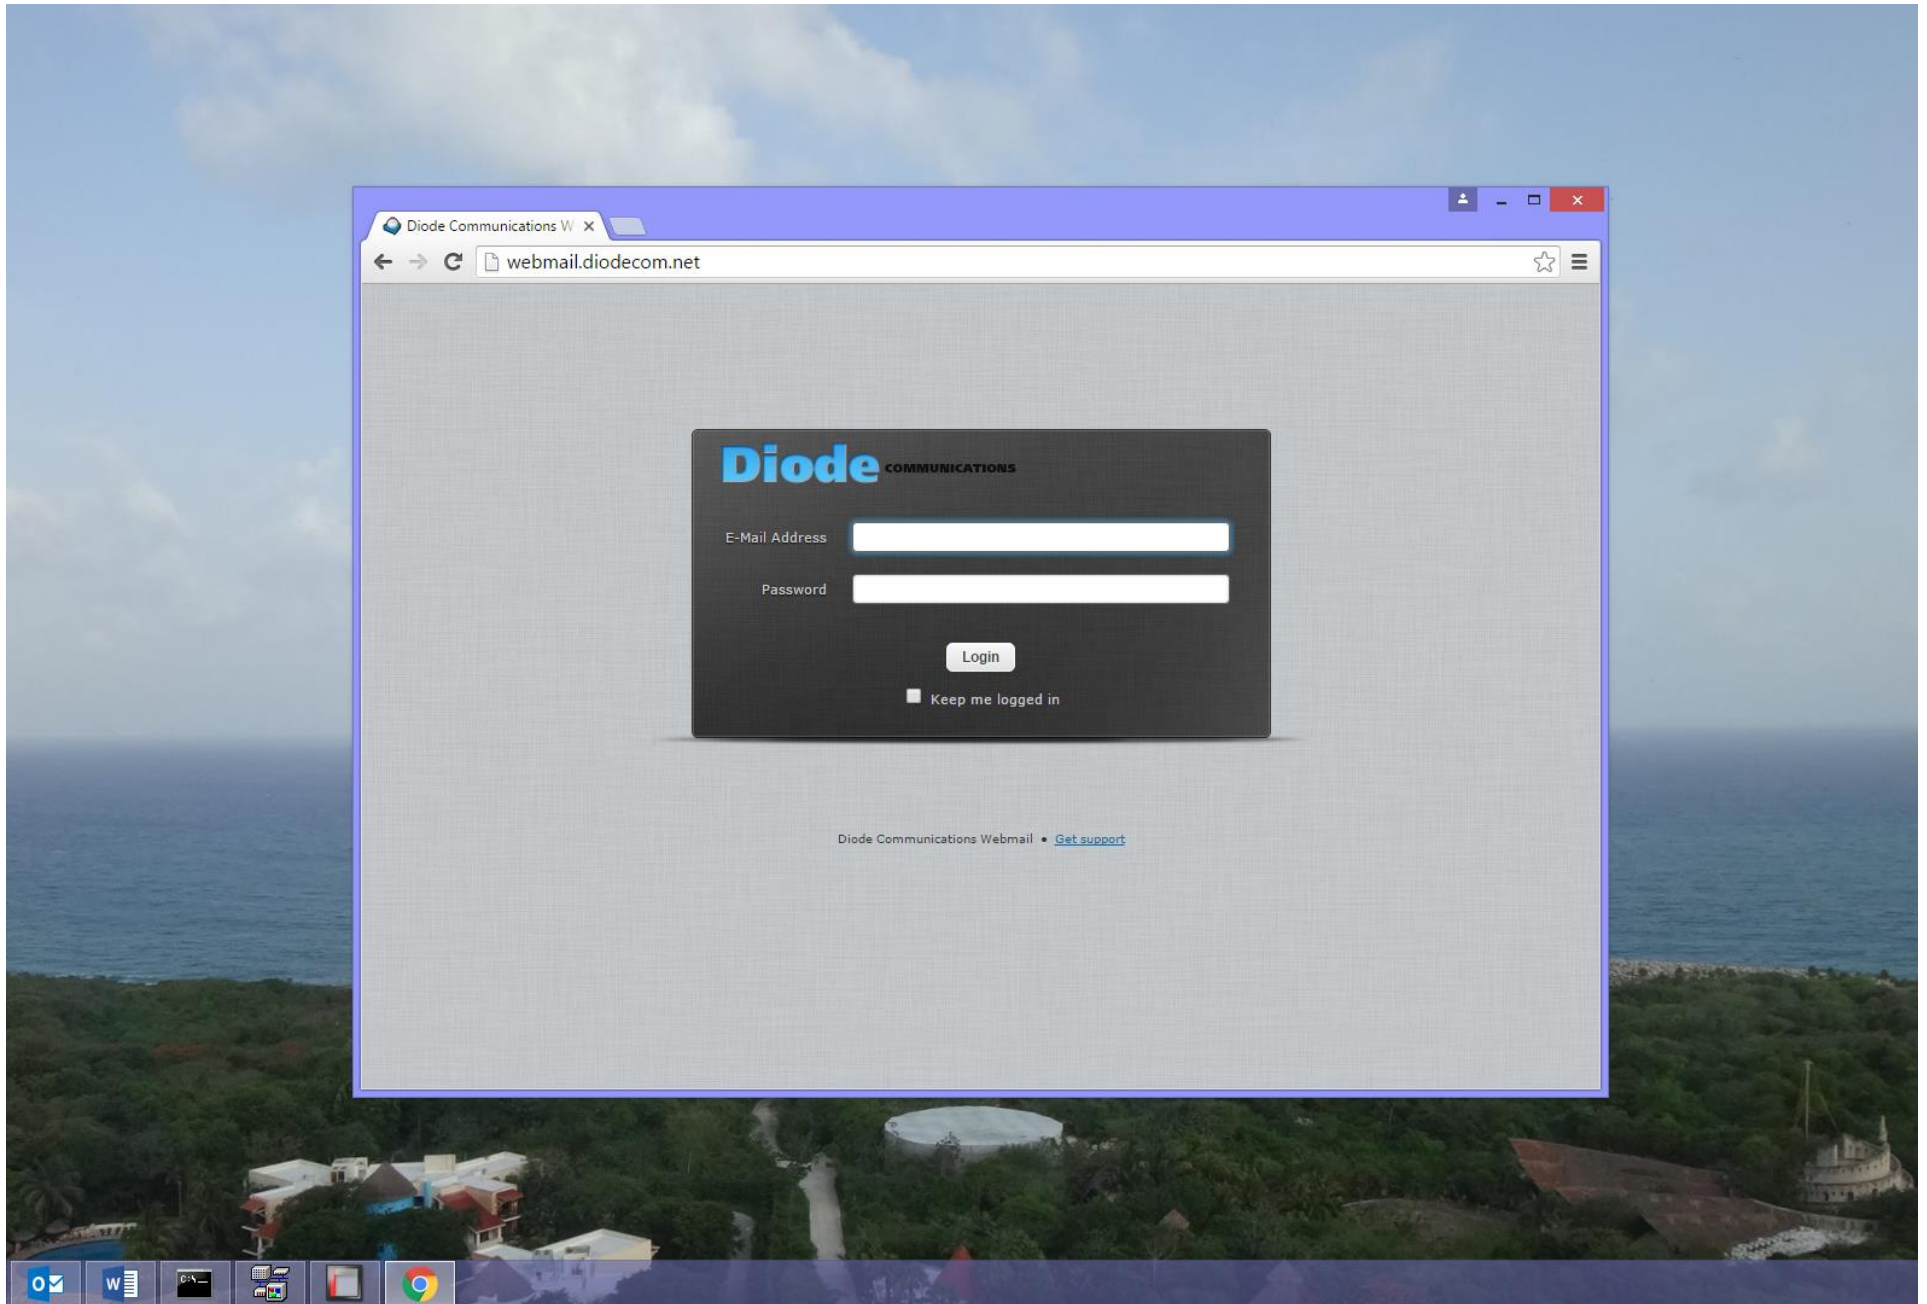

Name your Shortcut. We will call it Diode Email. Then Click **FINISH**

Your new shortcut icon will now appear on your Desktop.

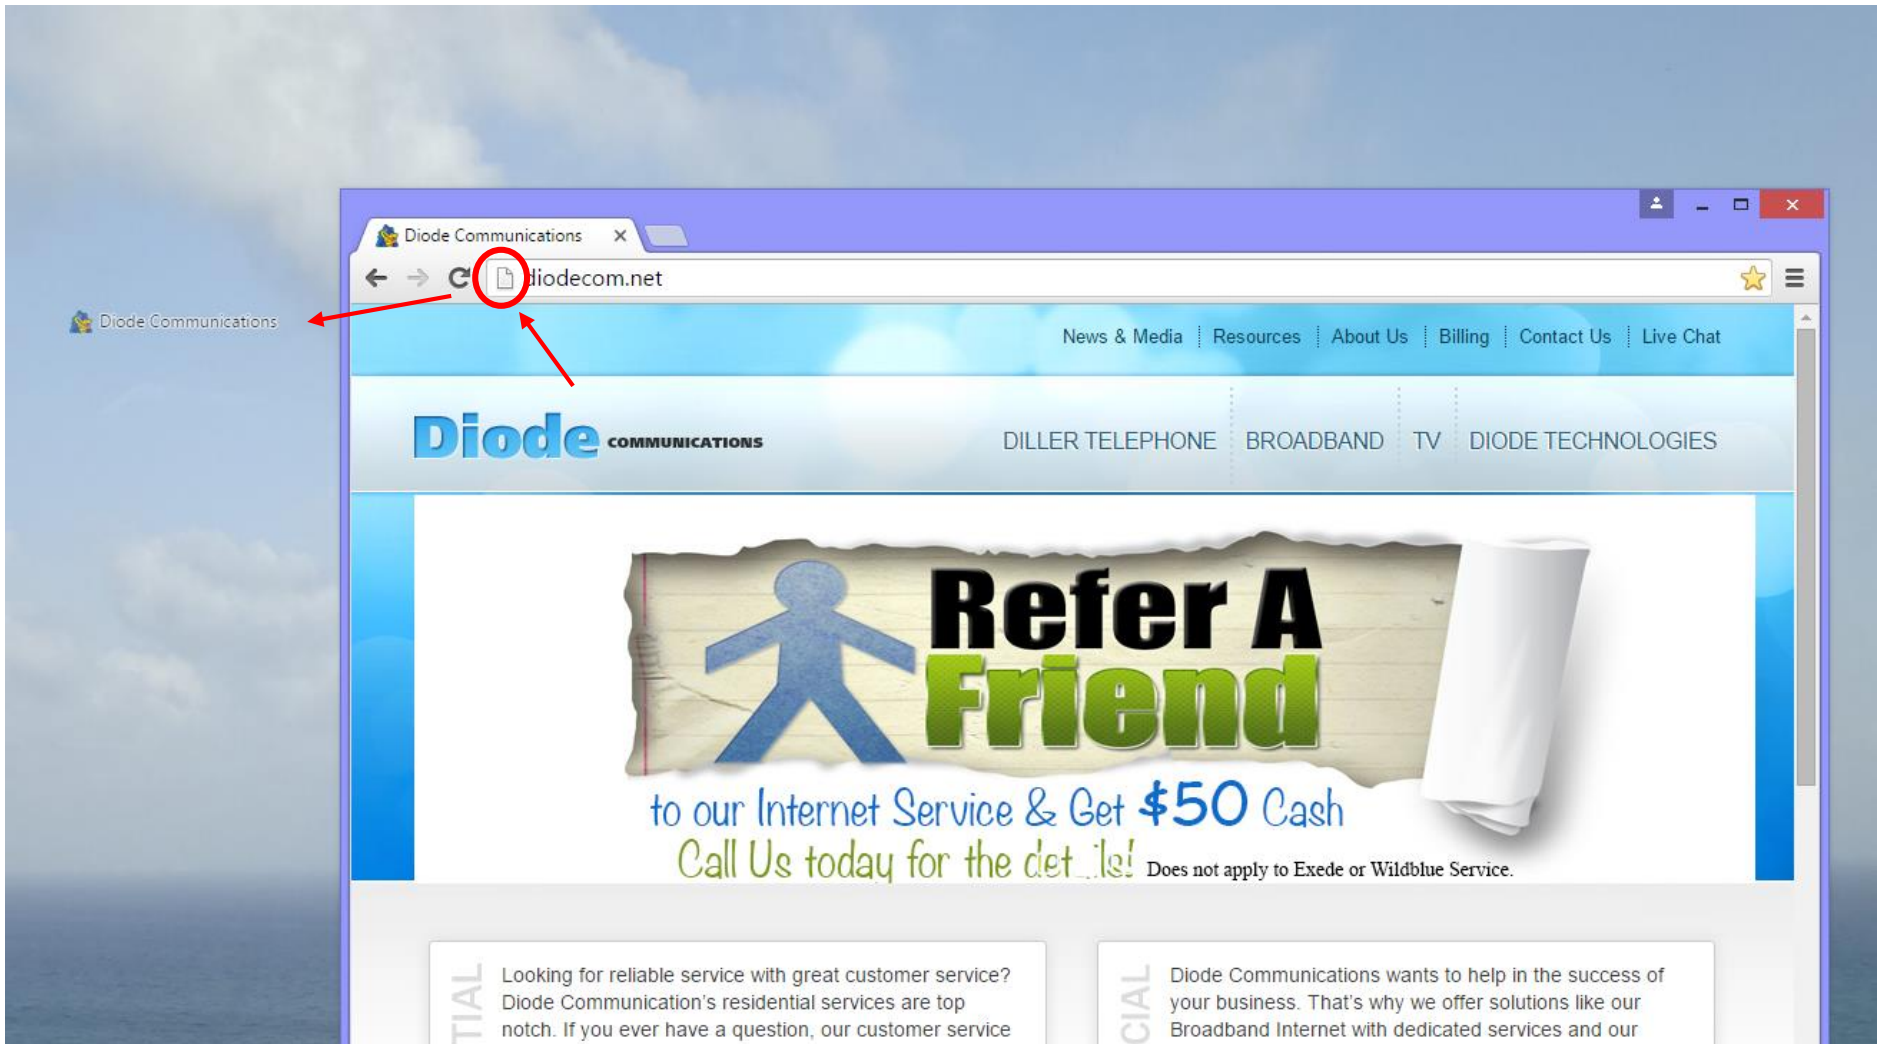

Double clicking on your shortcut icon. It will bring up your email login screen.

Option # 2

Creating a website shortcut

Once you have the website you would like to create a shortcut from. Click, hold and drag the icon in the corner next to the website link (URL) to your desktop.

Now your new Shortcut will appear on your desktop.
